Savvis, Inc. (NASDAQ:SVVS) is an outsourcing provider of managed computing and network infrastructure for IT applications. By outsourcing to Savvis, enterprises can focus on their core business while Savvis ensures the quality of their IT infrastructure. Leading IT organizations around the world have selected Savvis to help them improve their service levels, reduce capital expense and deal with the rising costs of bandwidth, energy, real estate, staff and expertise. As a pioneer in utility computing, Savvis understands and harnesses the latest advances in technology like virtualization, cloud computing and support process automation.

Key Metrics

- More than 2,500 unique business and government clients, including 30 of the top 100 companies on the Fortune 500
- Over 2,000 employees with deep expertise in technical operations, customer support, engineering, and consulting
- \$874 million revenue in 2009

Products & Services

Savvis provides IT infrastructure services that can be used as part of a total outsourcing solution or to selectively support specific applications or business units.

Services include:

- Cloud - virtualization and hosting
- Colocation, Managed Hosting and Utility Compute - facilities and operations; compute, storage, and network
- Network - converged applications; community of interest networks; private lines; Internet
- Security - managed security services and consulting
- Industry Solutions - financial, government, and Software-as-a-Service (SaaS)
- Professional Services - infrastructure, security, business continuity, compliance, program management

Infrastructure

The Savvis infrastructure extends to 45 countries and includes:

- 31 data centers, encompassing approximately 1.5 million square feet of raised floor
- 22,000 managed circuits in a private network supporting multiple application service levels
- Tier-1 OC-192 Internet backbone with over 17,000 miles of fiber

Target Markets

Savvis focuses exclusively on providing IT services to business enterprises. Because of its global infrastructure, management systems and business model, Savvis has the unique capability to deliver fully managed and integrated IT solutions to enterprises with offices around the world.
